But It's not the end!!

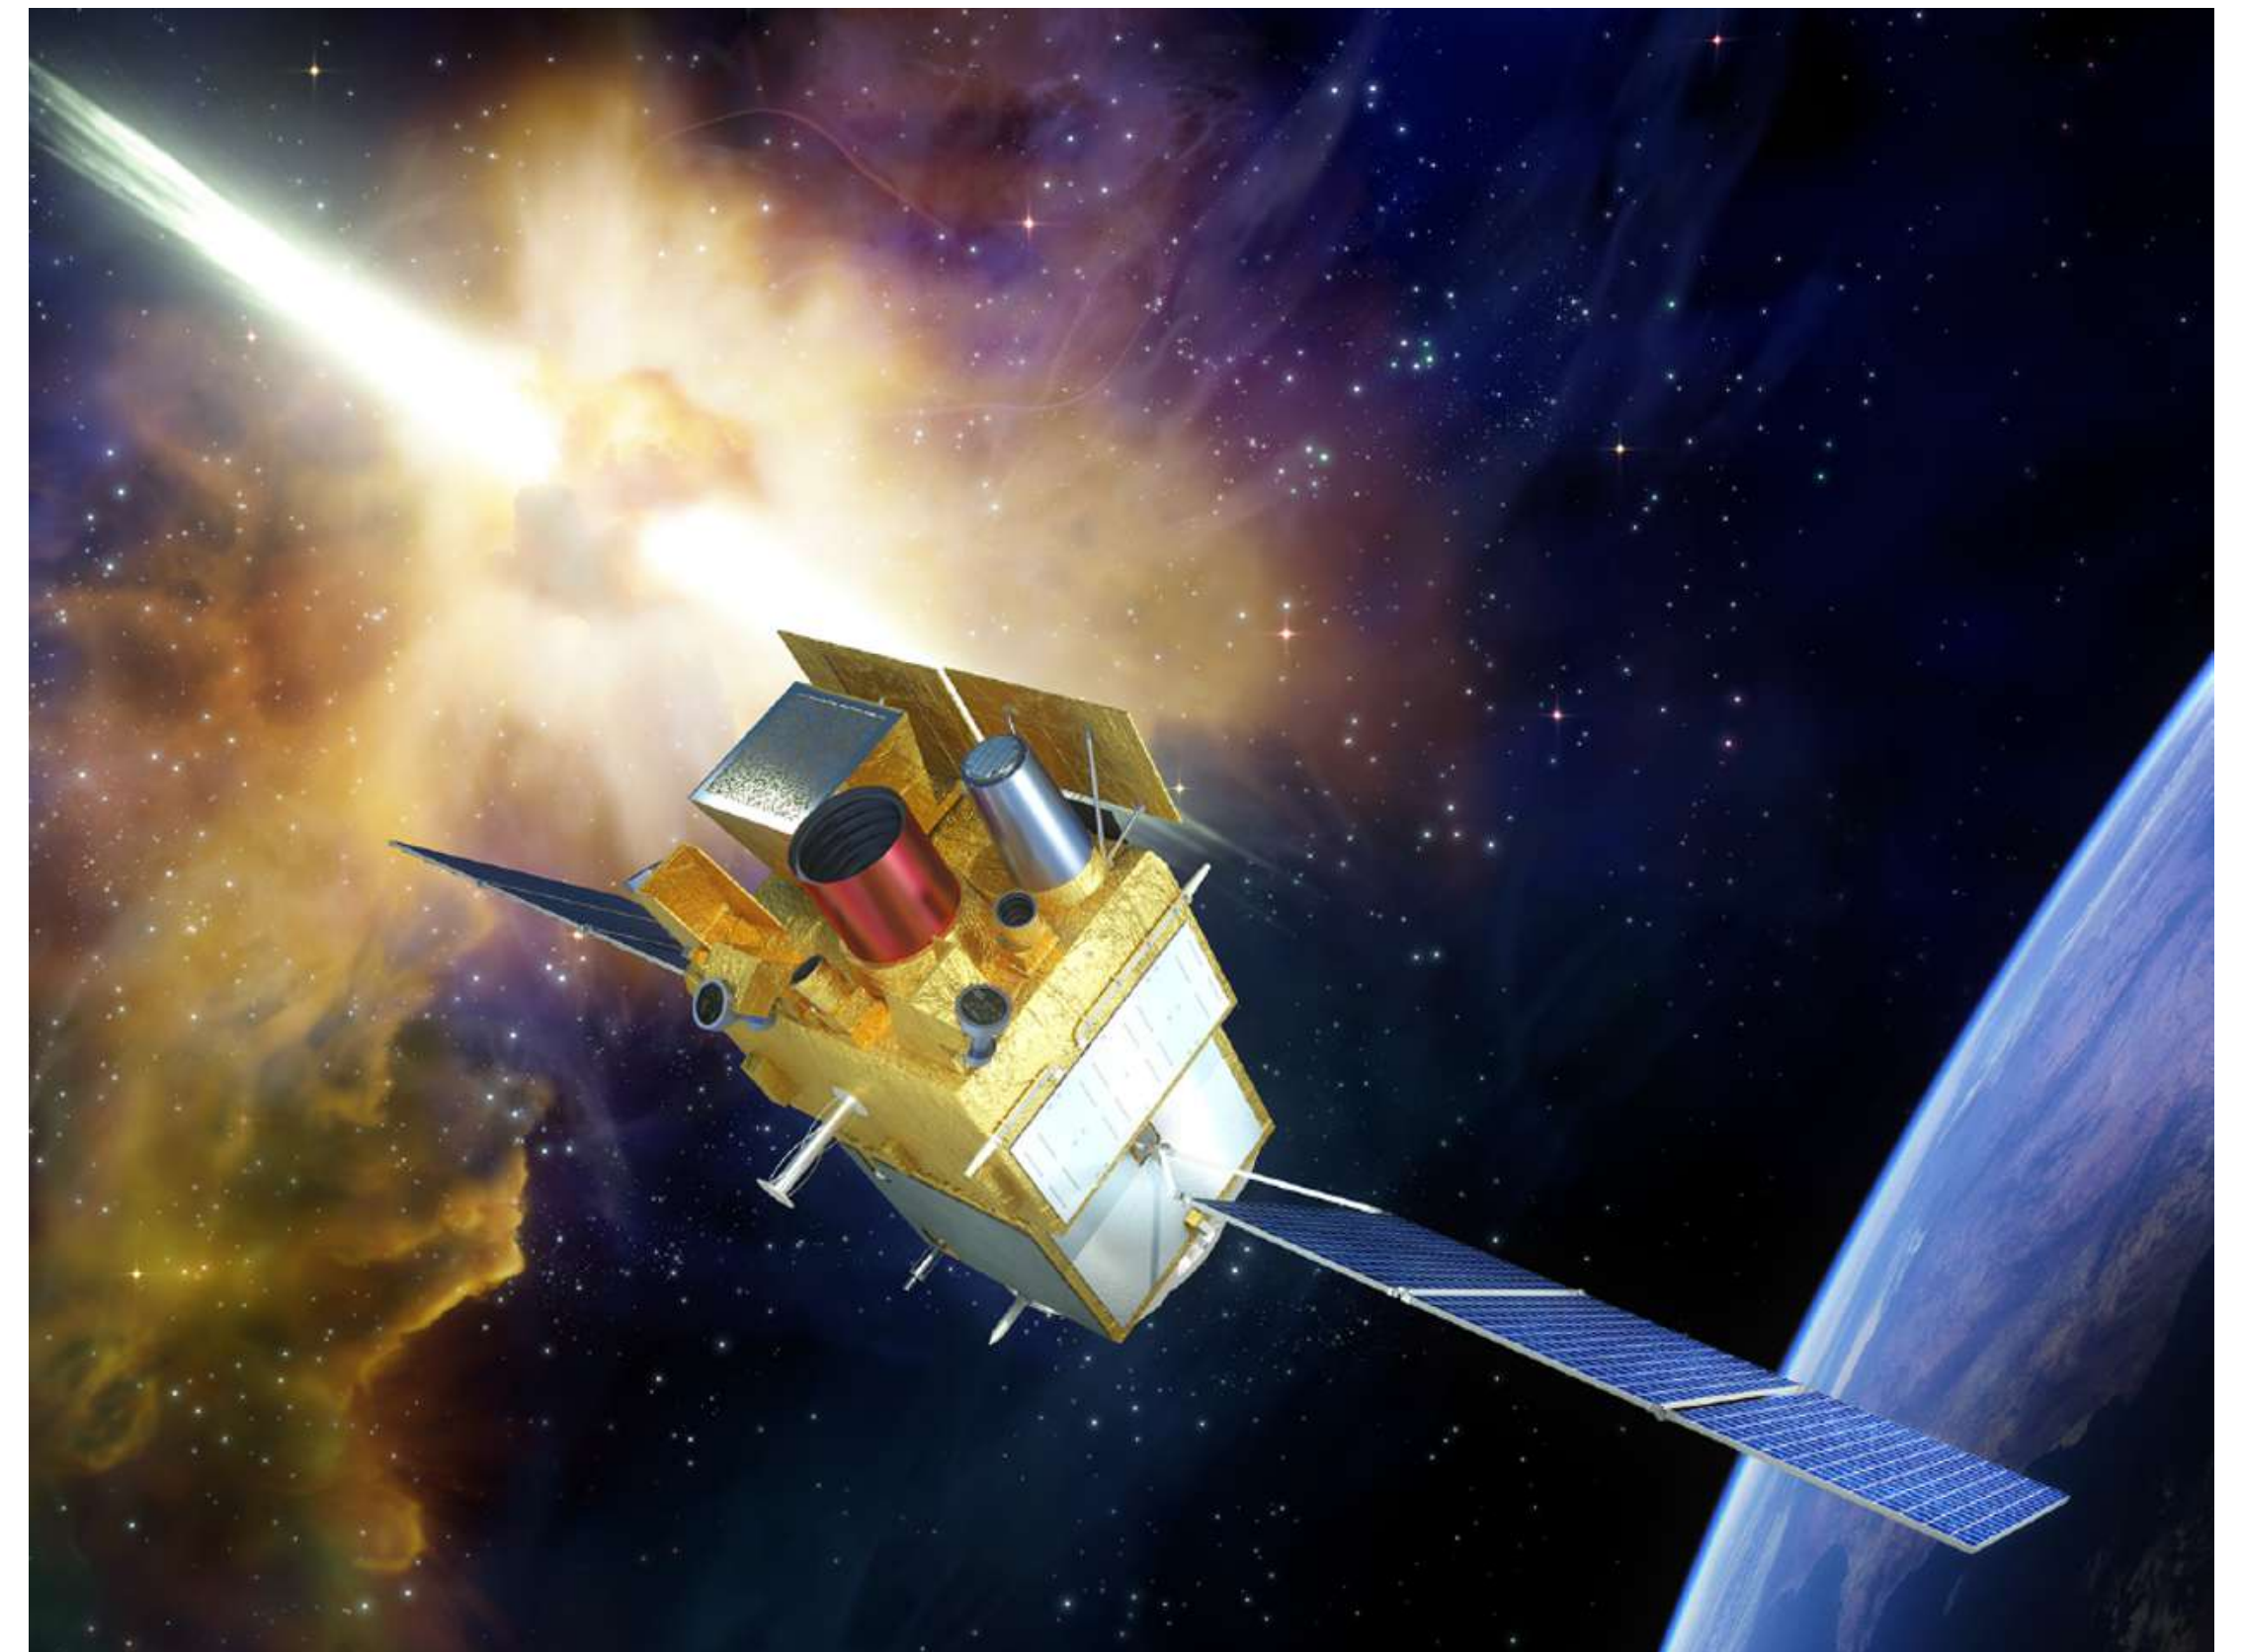

I got a PhD scholarship @ IJCLab to work on a space project SVOM !!

We will detect stars explosions million light years away!

I am the only student who are involved in the project!!

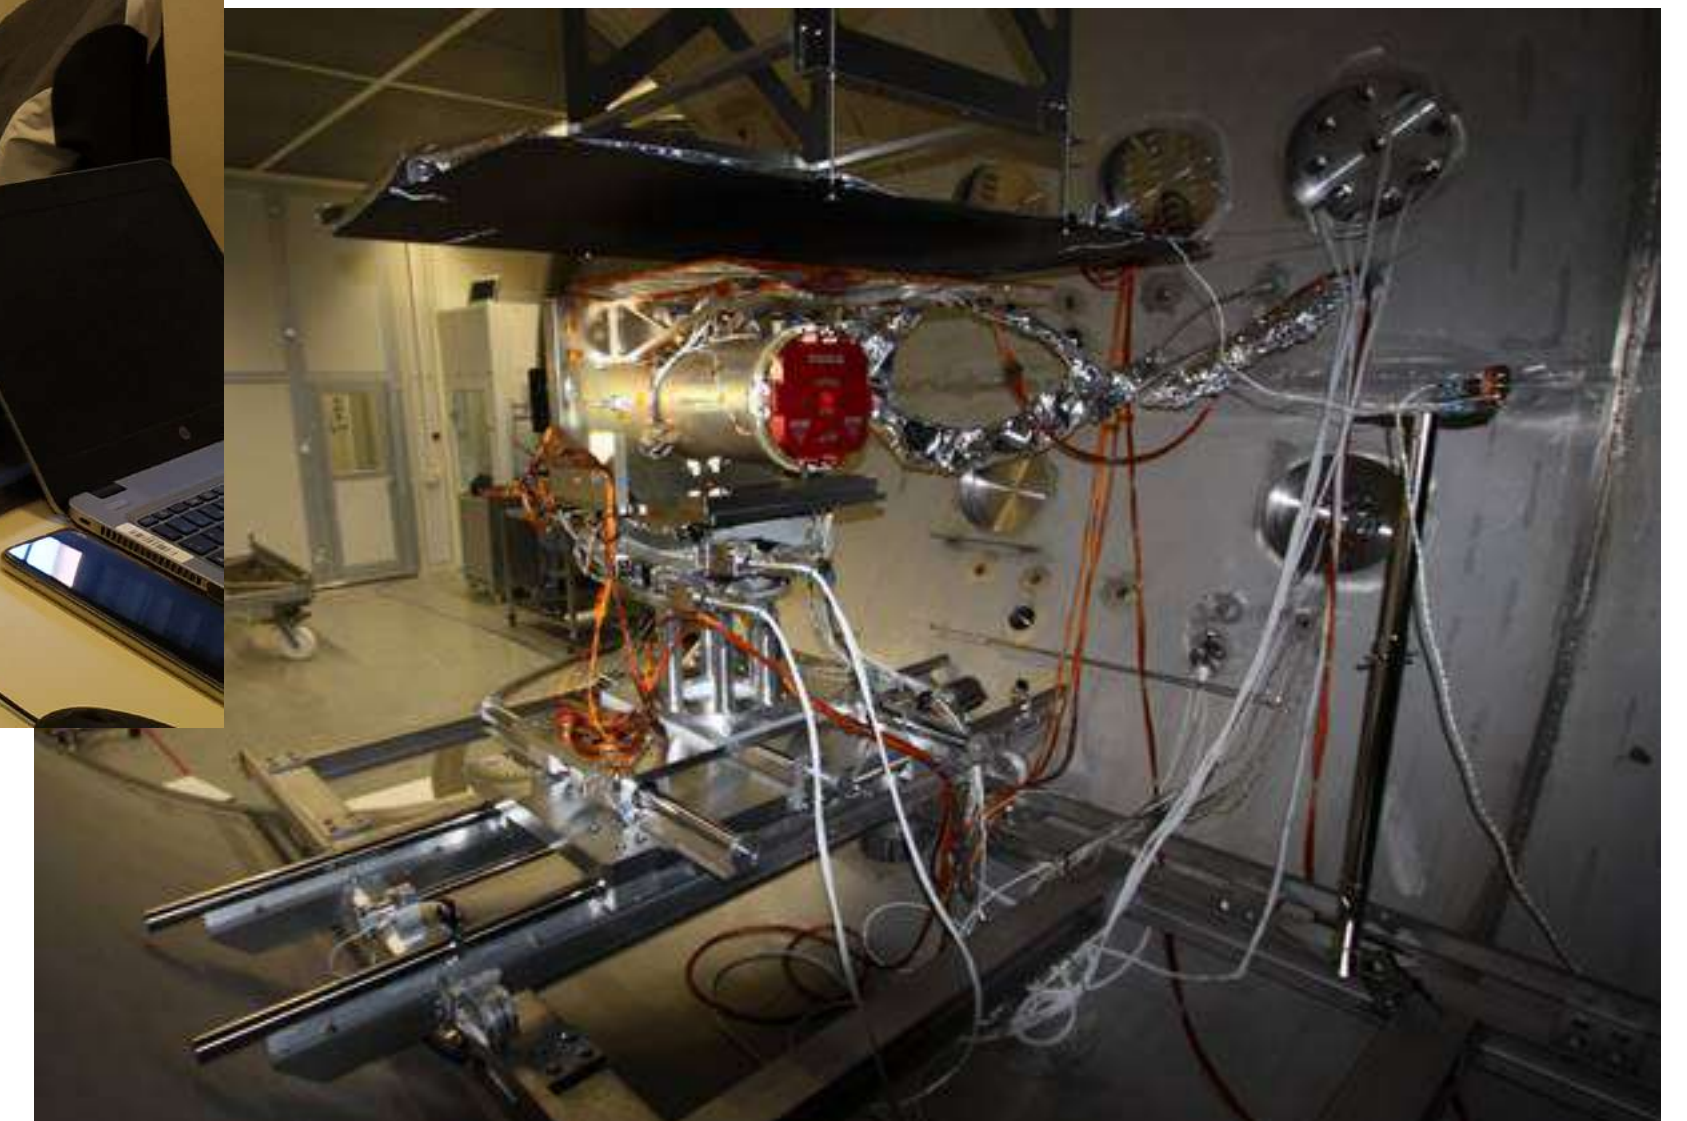

I visited space tests facilities in different places

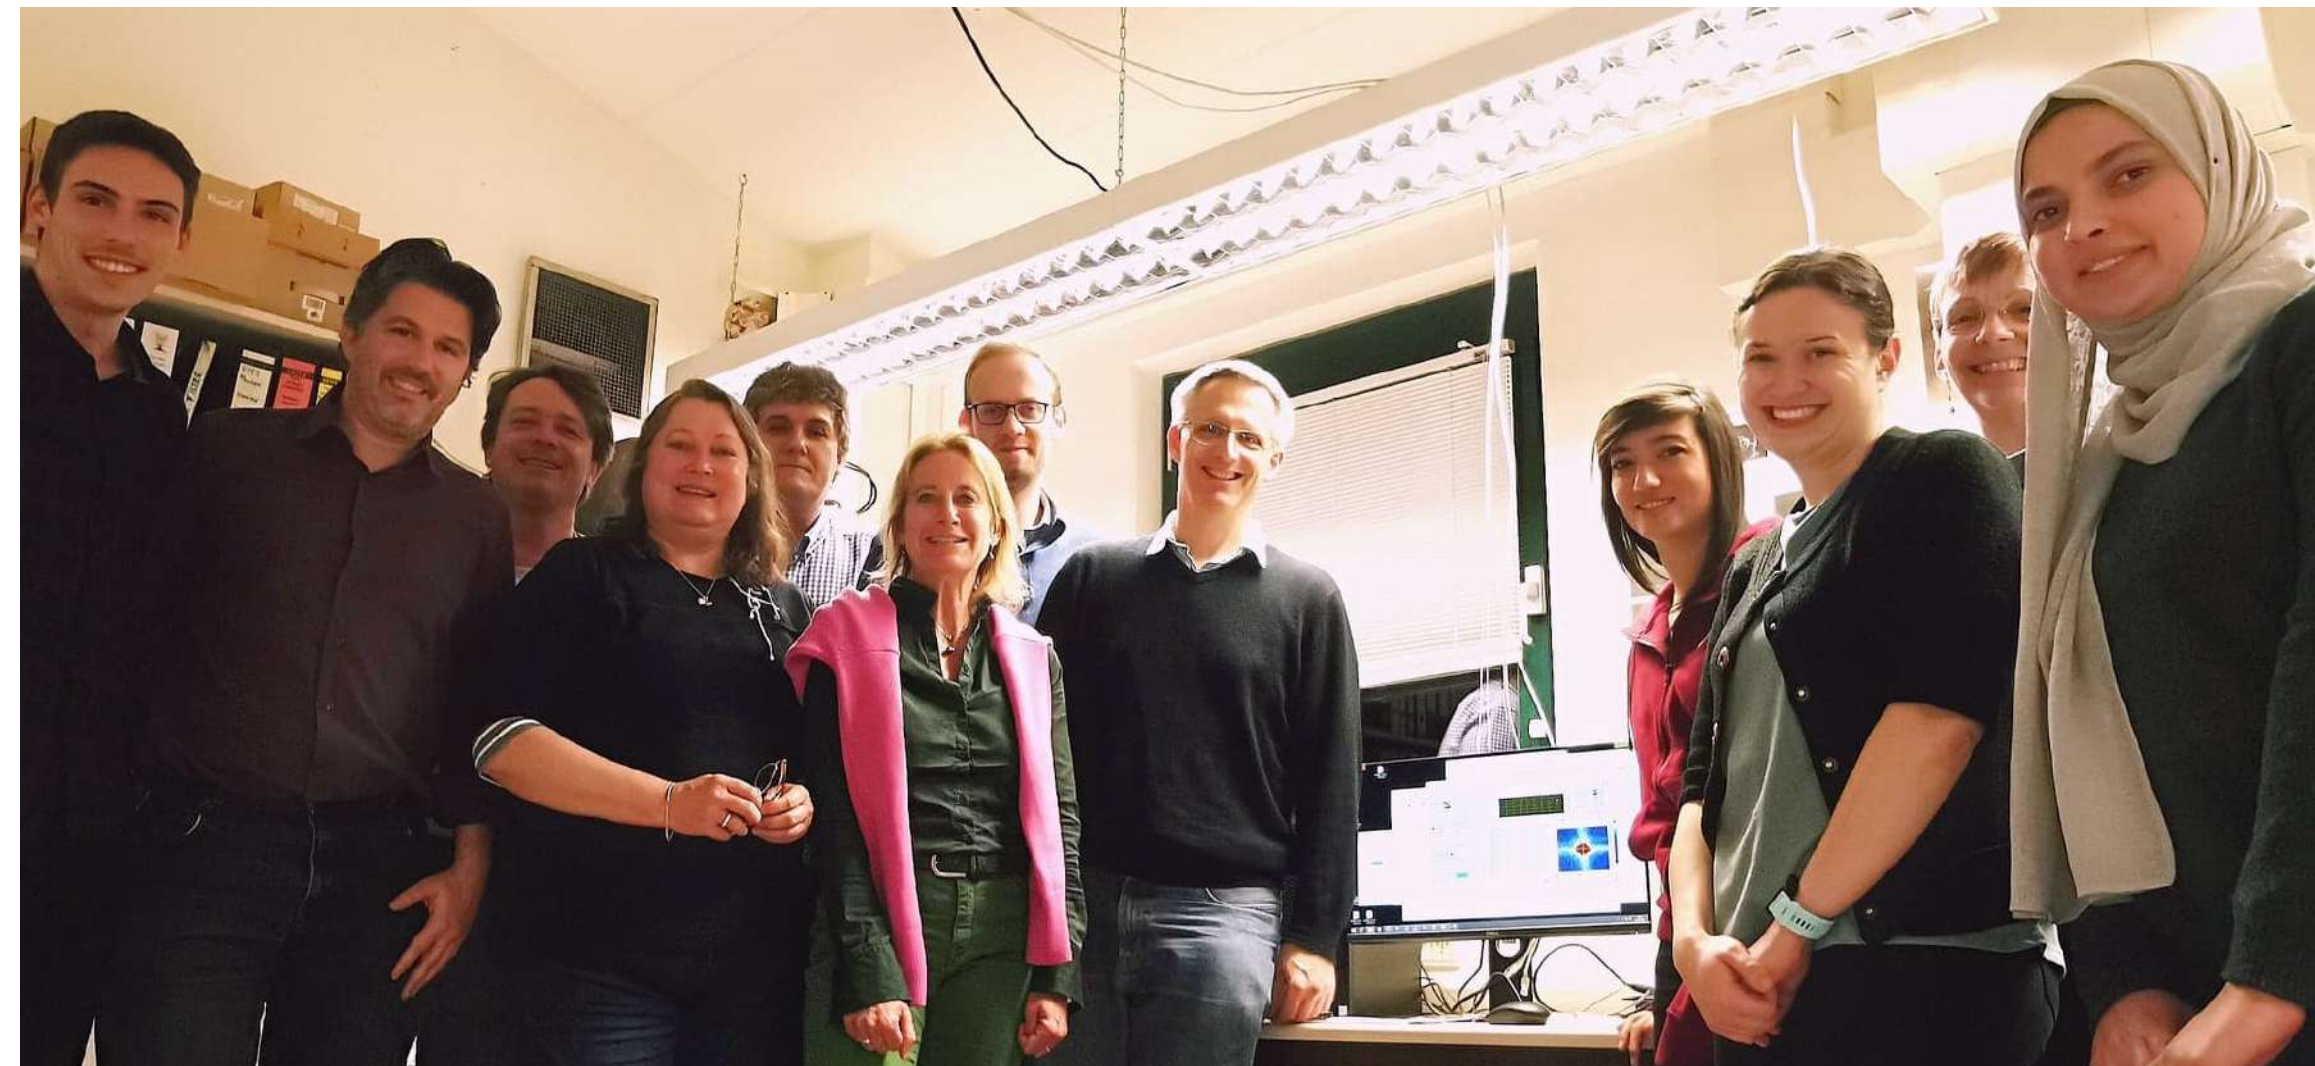

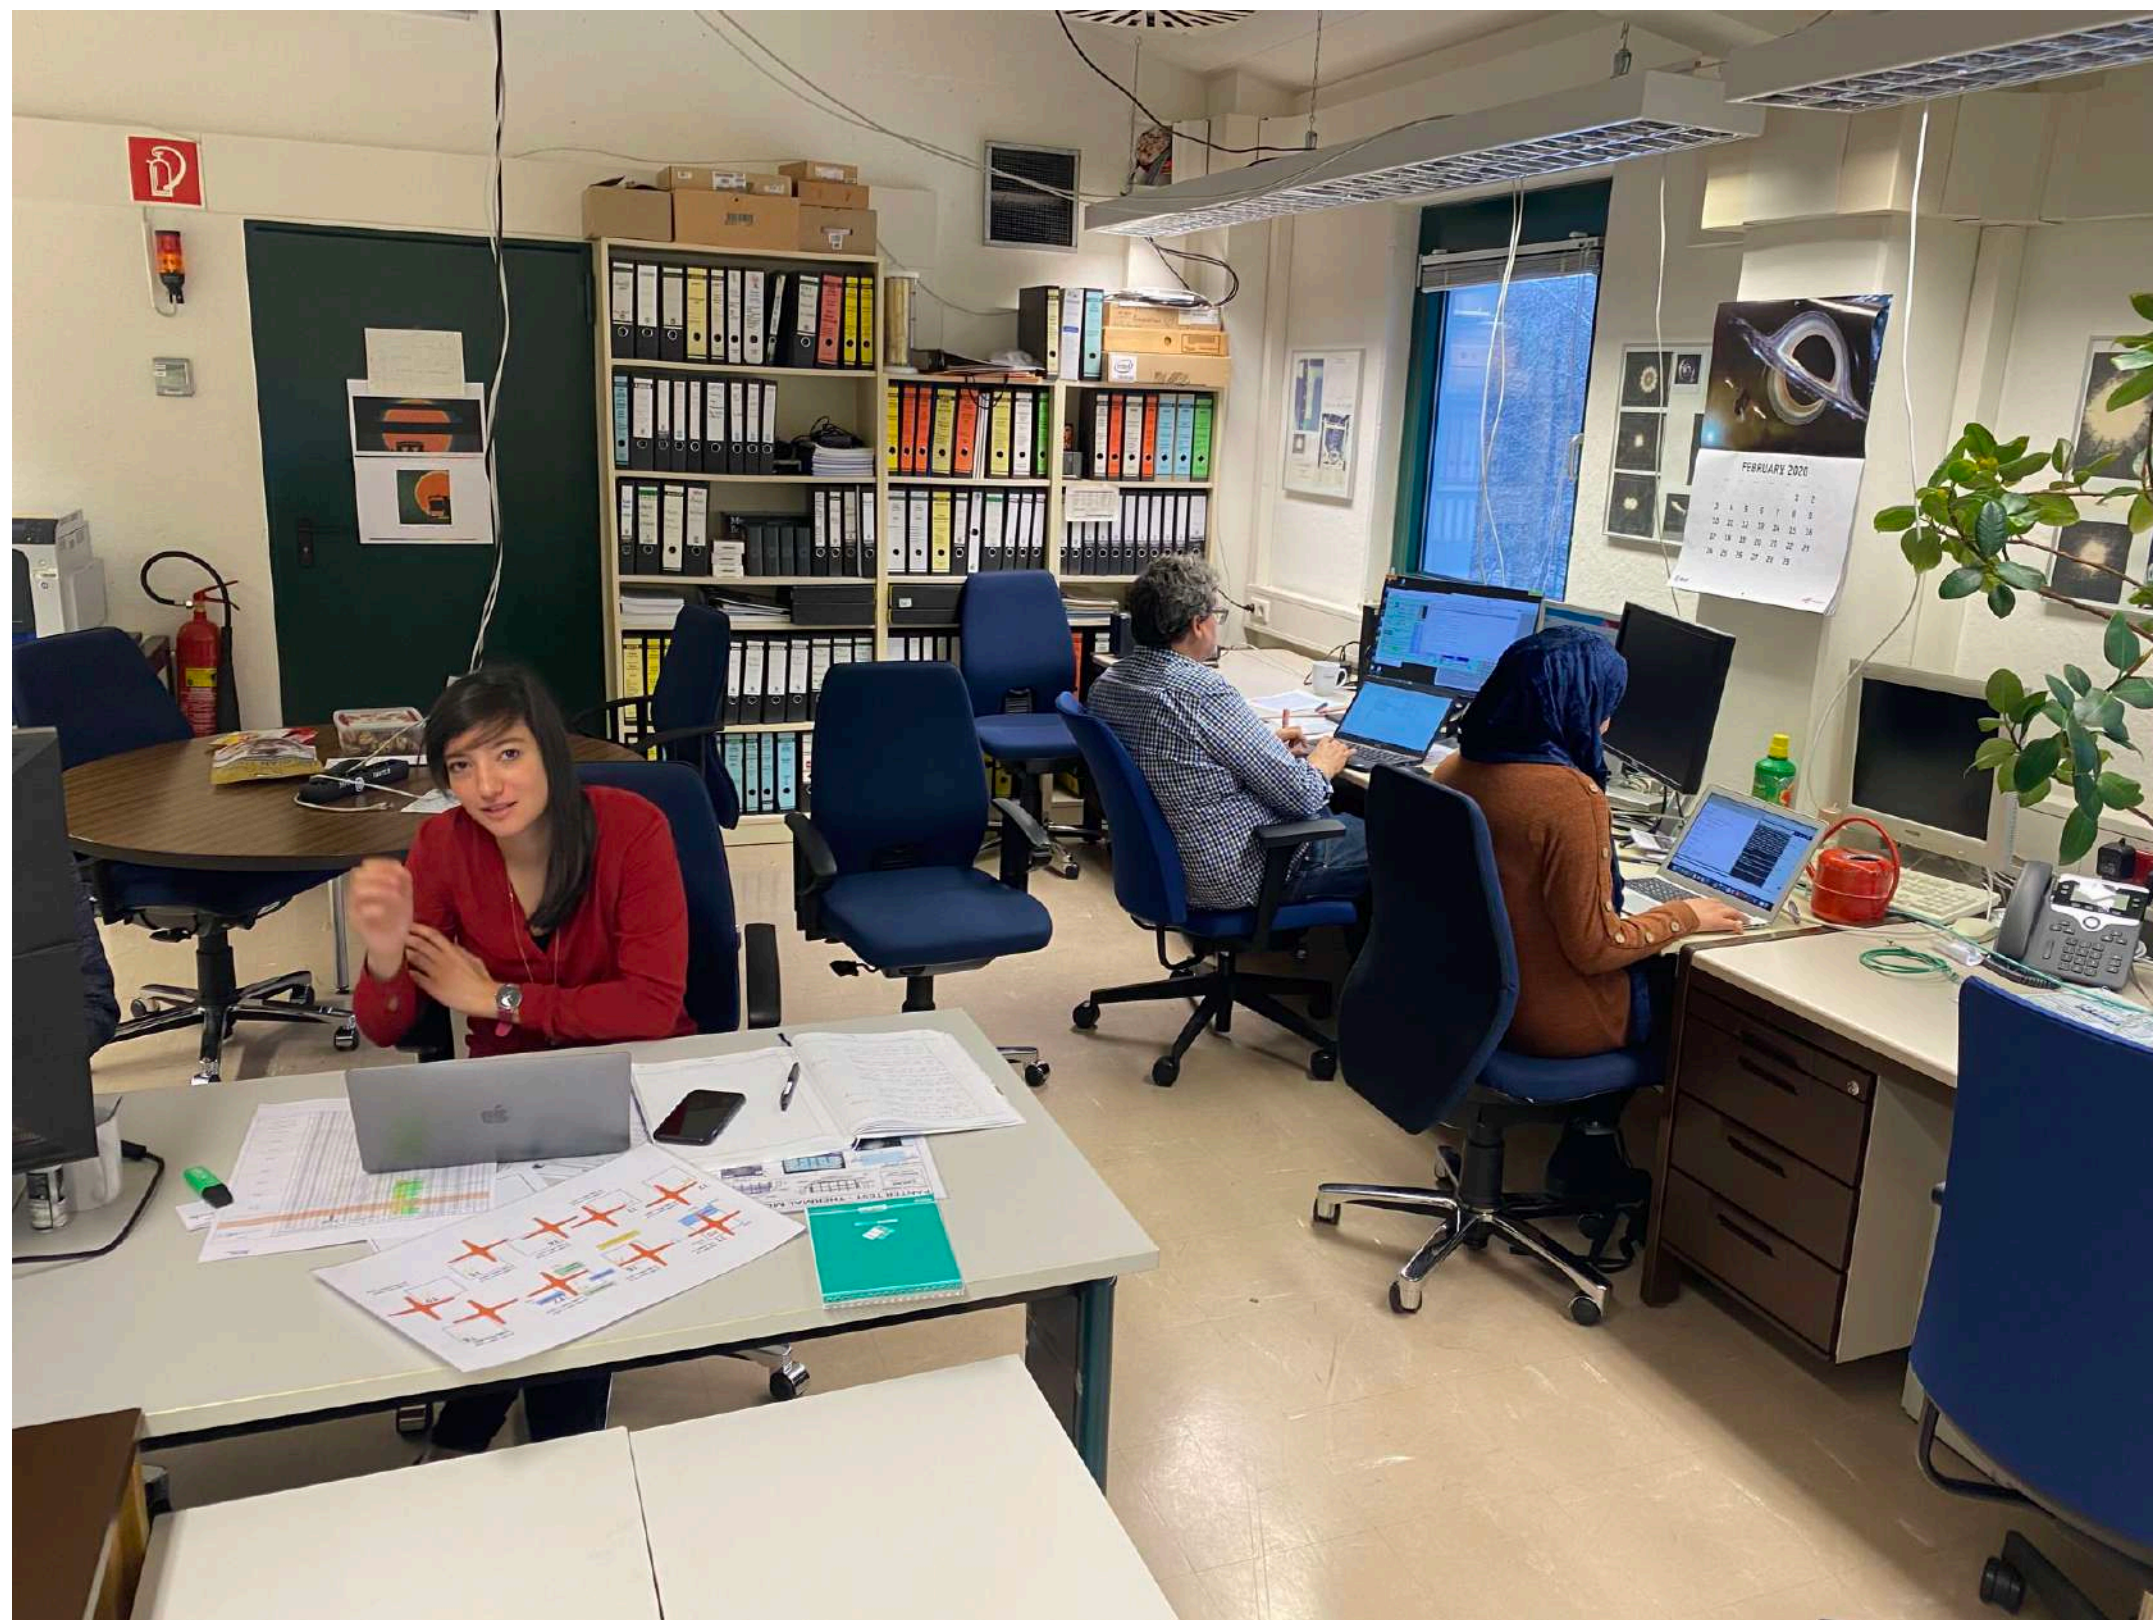

📍 **cnes, Toulouse France**

📍 **PANTER, Munich Germany**

📍 **cea, Saclay France**

Of course the PhD life is not easier than Master life

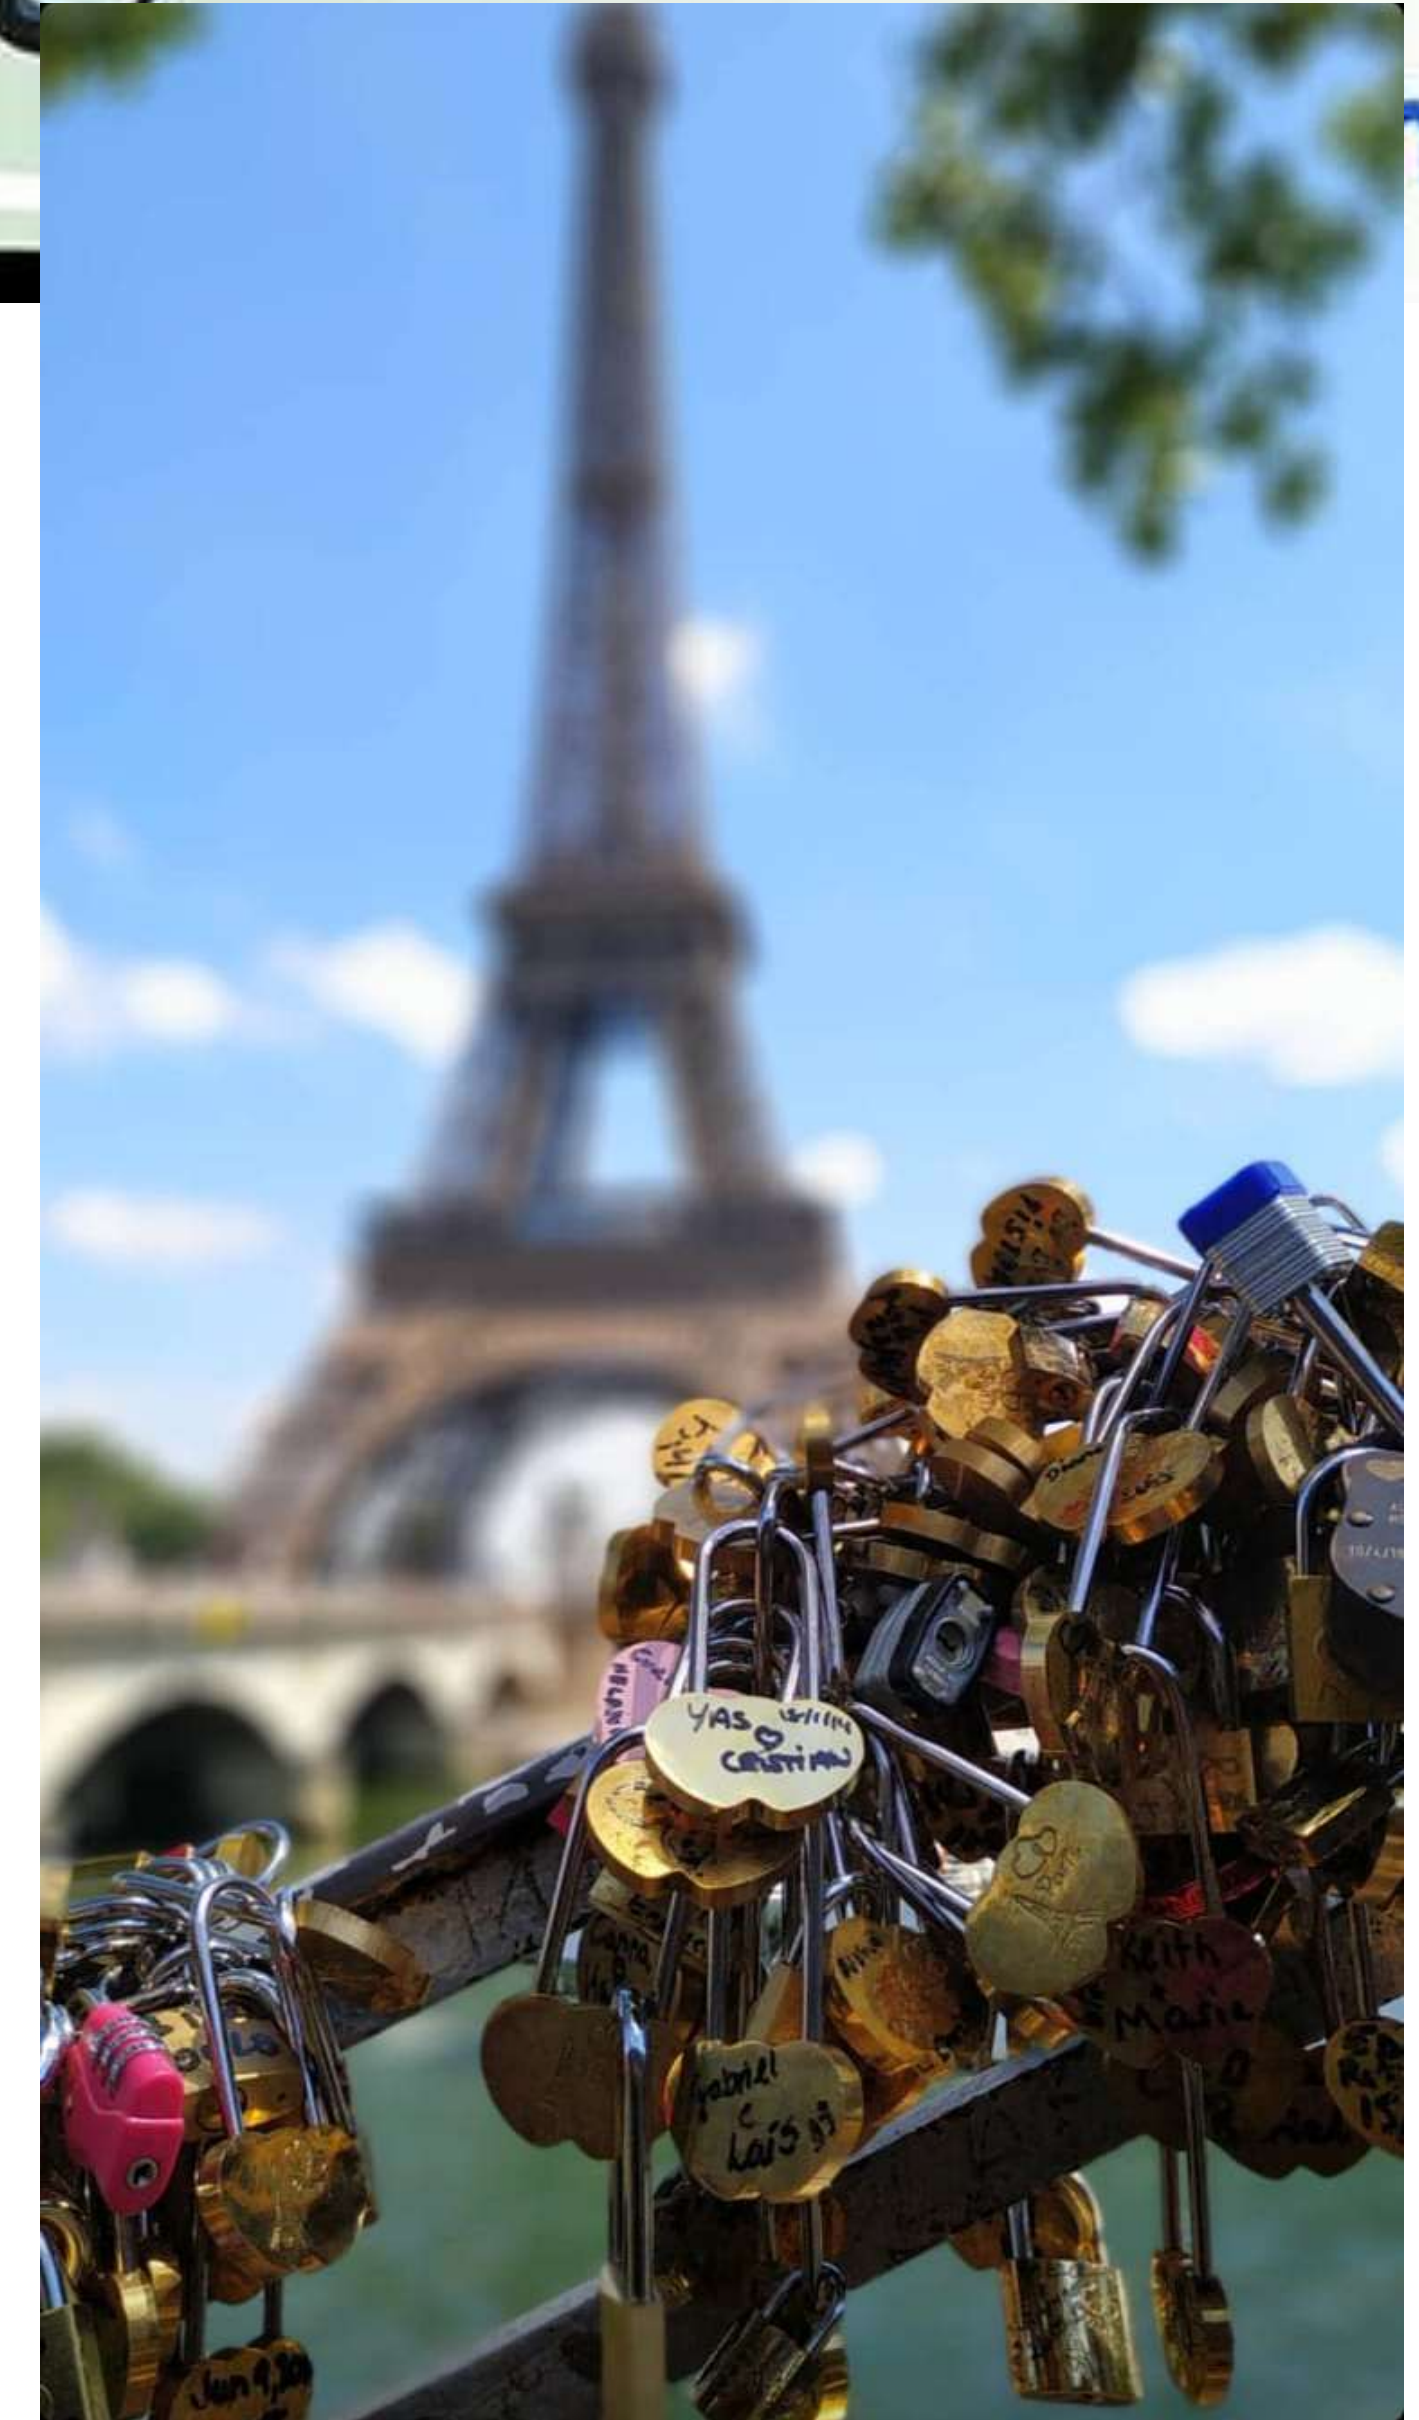

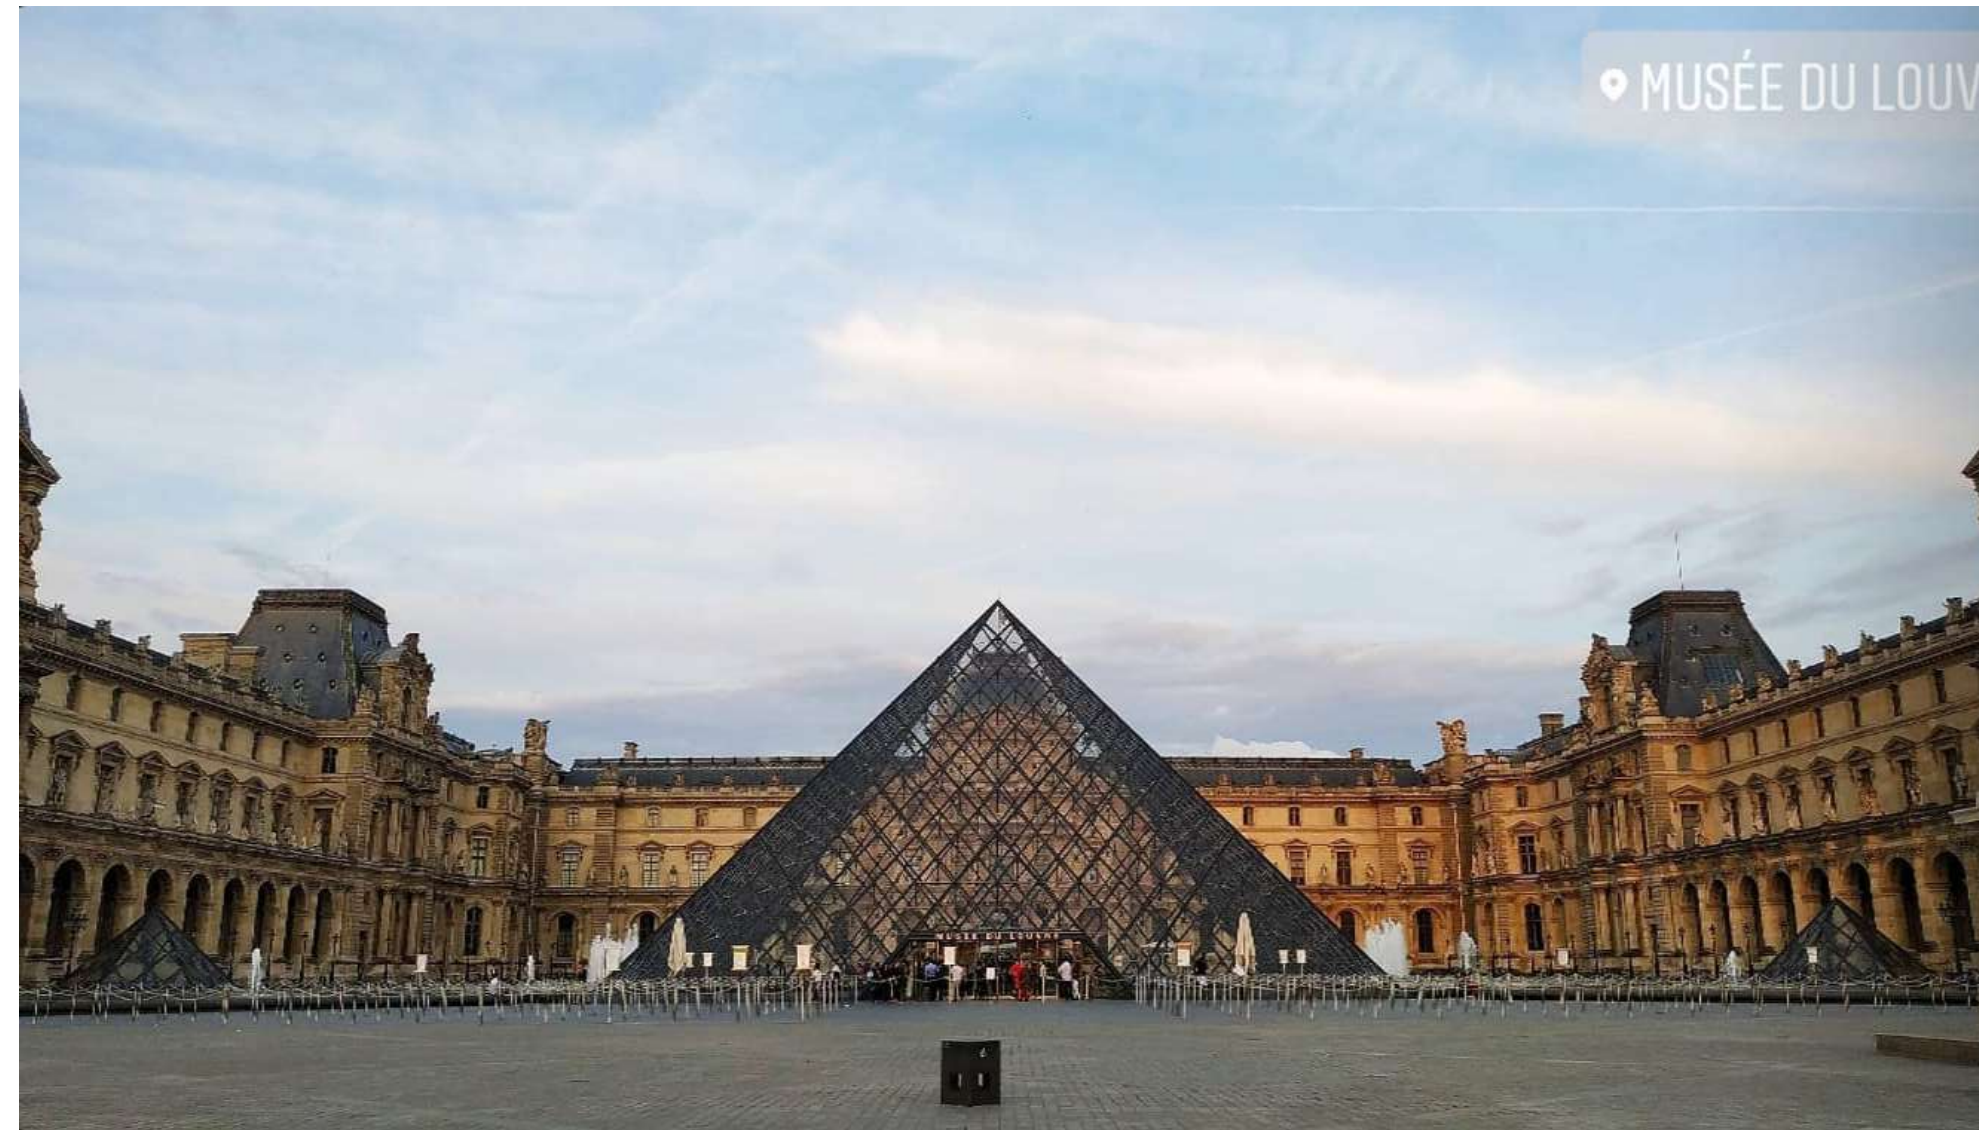

But always we have a free time to enjoy!

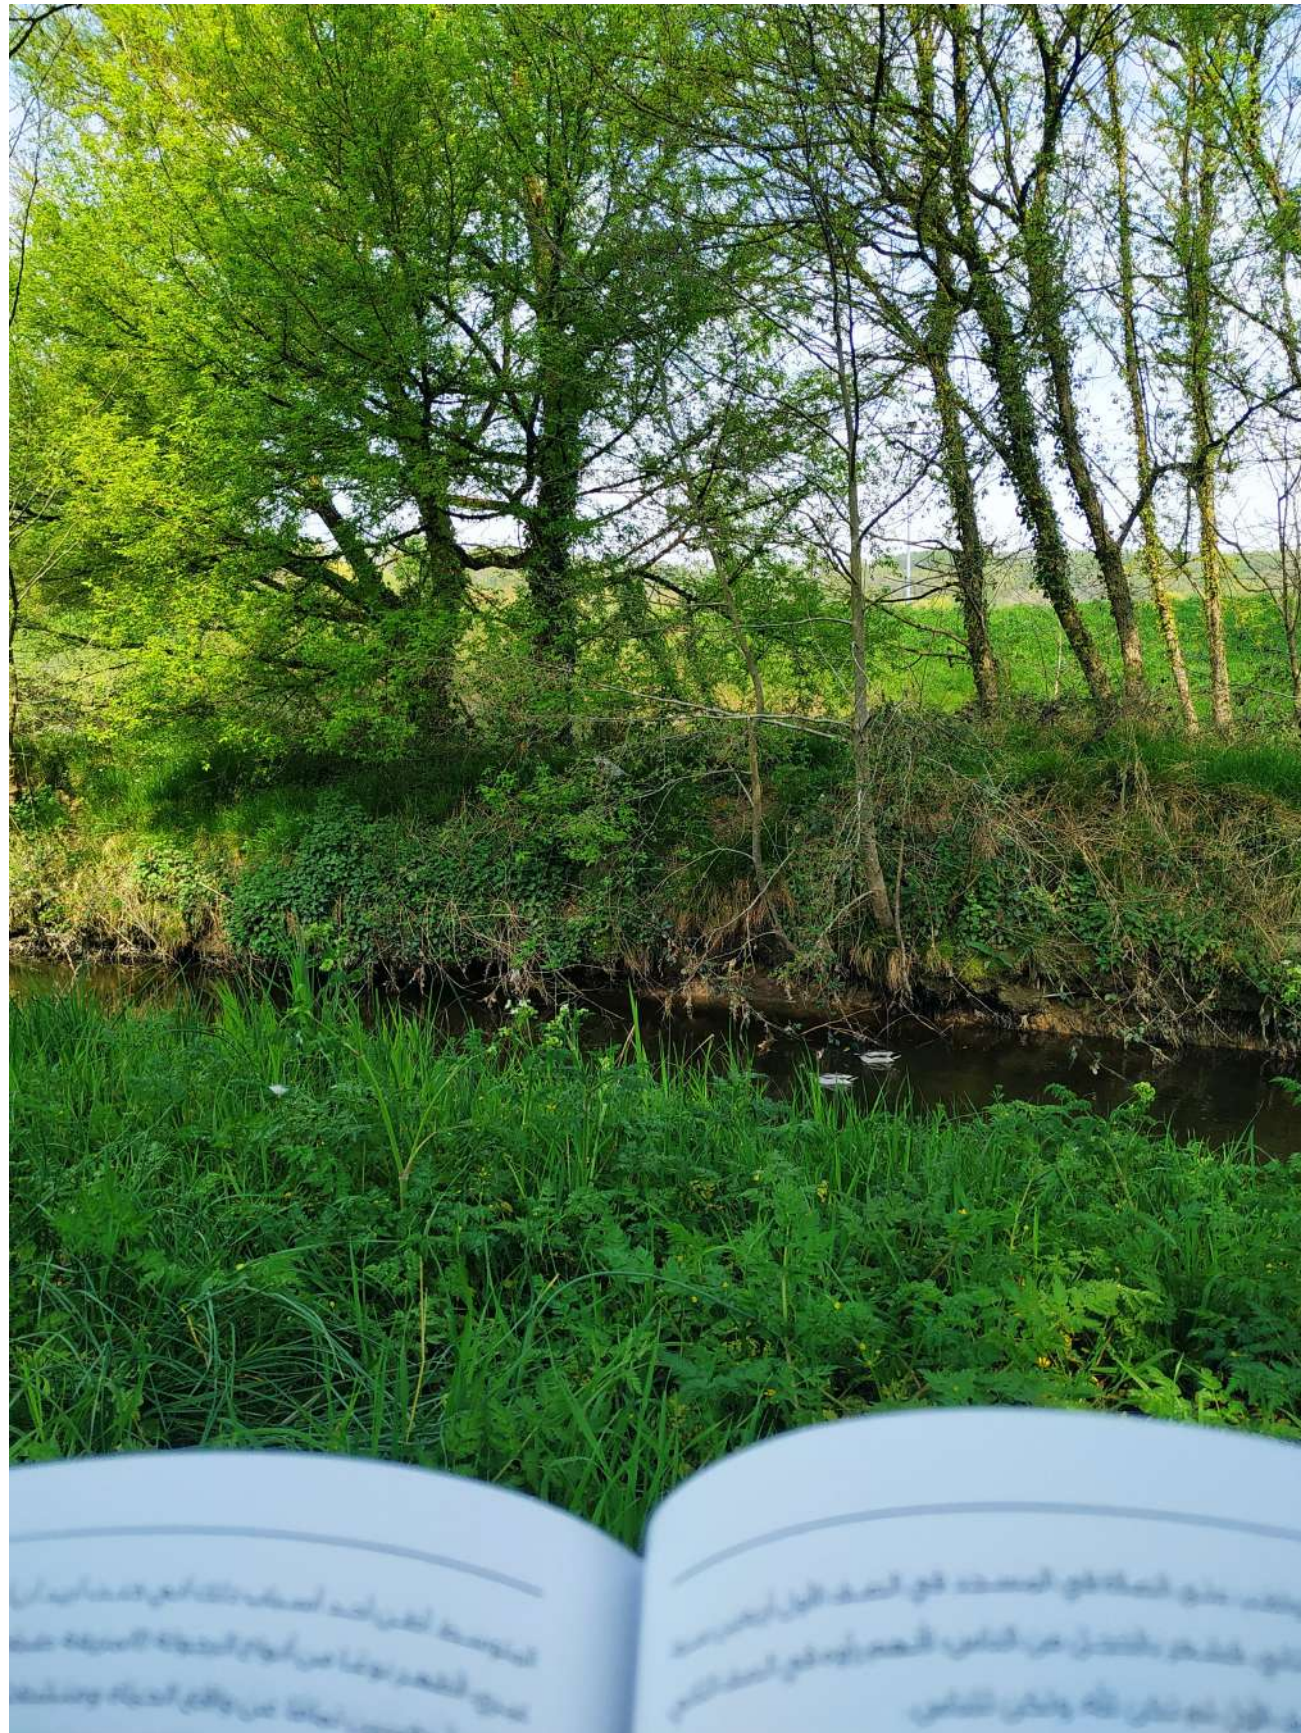

Palestinian lunch @ IJCLab

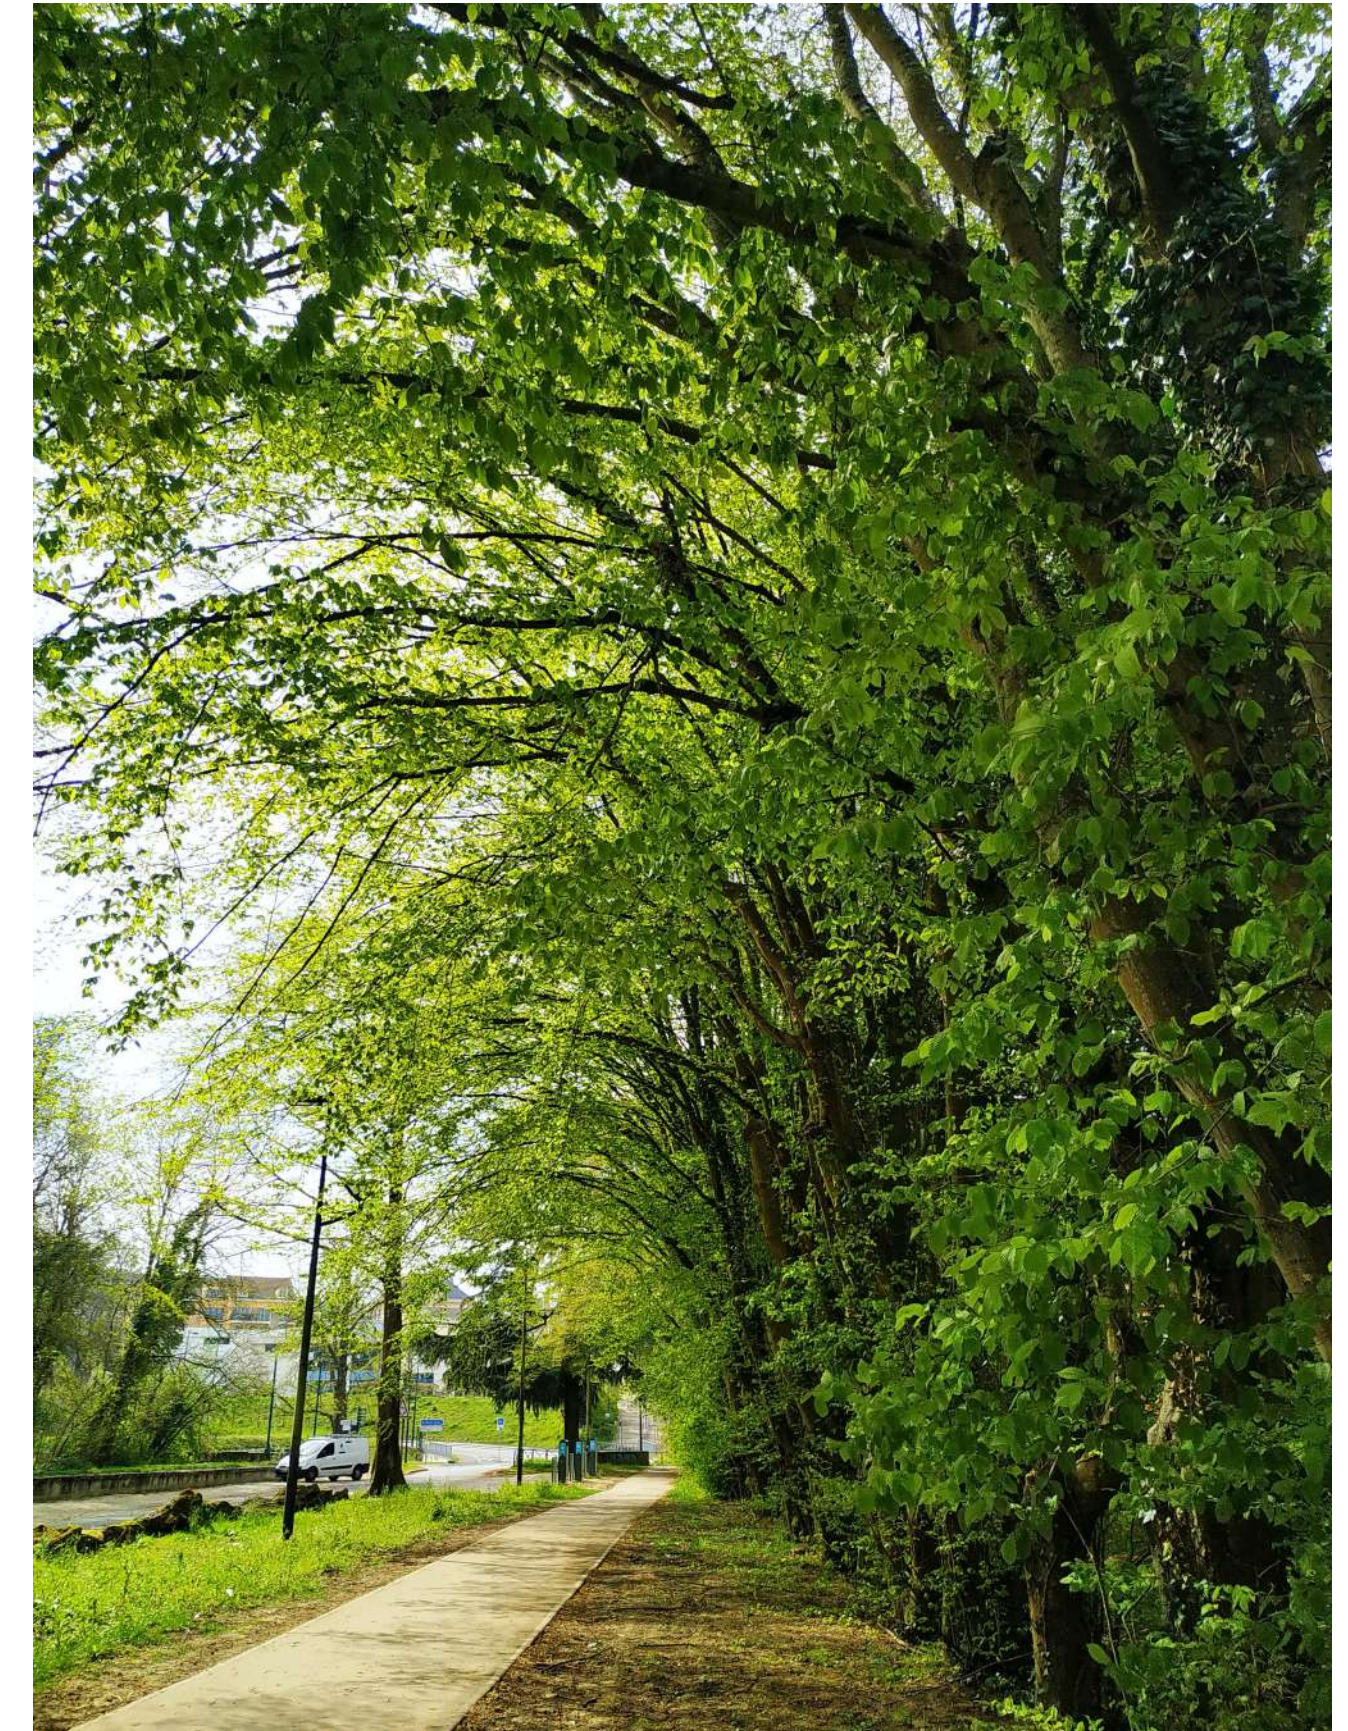

We also enjoy Paris

And During the pandemic we had time to enjoy the nature

And also some time to cook!!

Homemade cheese and Kunafa
